

Hello,  
my name is **Ondrej**  
and I **optimize** websites  
at [House of Řezáč](#).

### I can...

- Optimize web sites and services.
- Design and create responsive websites with great user experience.
- Create back-end heavy admin system.
- Collaborate in team.
- Learn new things with ease and enthusiasm.
- Work with these: UX, GA, PHP, GIT, SASS, MySQL, Grunt, JavaScript, HTML5, CSS3, jQuery, Bootstrap, OOP...

### I can not...

- Keep feedback and opinions just for myself.
- Create an elaborate graphic design.
- Work nine-to-five every day a week. (It's just not effective.)
- Sing, but I can play ukulele. Almost three chords.

## Selected works

- House of Řezáč [www.houseofrezac.com](http://www.houseofrezac.com)  
Currently I am part of Czech web design agency working on many projects. Check us out at [houseofrezac.com](http://houseofrezac.com)!
- Nostis [www.nostis.org](http://www.nostis.org)  
First MOOC platform in Czech Republic made for NGO [Nugis Finem](#). I have designed the user interactions, developed and tested the website. (Shortly, everything except the graphic part. Yey for unicorns!)
- Hirex [www.hirex.cz](http://www.hirex.cz)  
Tiny webstie for human resources agency with CMS for new positions. Polished and tested for highest usability and best user experience for visitors.
- University e-bulletin board [www.nastenka.pf.upol.cz](http://www.nastenka.pf.upol.cz)  
Throughout my [bachelor thesis](#), I have gathered a lot of knowledge about law students in Olomouc. And one of their biggest problems was communication with teacher. So we got together with our NGO and University and created a new and properly designed web application.

## Skills

- Web analytics and optimization
- Web Development (HTML, CSS, JavaScript, PHP)
- People & Team Skills
- User Experience Design
- Besides various programming languages I speak fluently Czech, English, basic Spanish. And I can say "cheers" in many, many other languages.

## Education

- University of Southern Denmark  
I have finished [IT Product Design](#) at University of Southern Denmark. I learned about participatory design & innovation, research methods and self-reflection. My thesis was about [MOOC Retention Rate and Motivation](#).
- Brno University of Technology  
I have a bachelor degree in information technology from Faculty of Information Technology. My bachelor thesis was focused on [user experience in web design](#) (in Czech only).
- TEI of Crete  
Erasmus studies of information technology in Greece.
